

Sunshades

This low cost range of covers offers protection of instrumentation against direct sunlight, acid rain and snow. These shades improve instrument accuracy by eliminating temperature increase due to direct sunlight. The covers also provide protection from falling liquids and debris. Supplied complete with mounting clamp for mounting cover on 2" N/B standpipe. Two types of clamps are available mounted either on the back or top pane

Ancillaries

Heaters , manifolds and junction boxes can be supplied to offer a complete assembly. Please ask.
